ROBERT GULOTTY¹

2.1 (p. 119)

2.3 (p. 119)

2.16 (p. 122)

2.20 (p. 123)

3.1 (p. 184)

3.2 (p. 184) (Use integration by parts)

3.8 (b) (p. 186)

3.11 (a) (b) (c) (p. 188)

Plot the pmf of each distribution in the following list, with at least one variation in the listed parameter(s), using either a histogram or with a custom table and a persp plot.

- bernoulli, p
- binomial, p
- Poisson, λ
- Geometric, p
